

Thomas Ridley Foodservice

Total Foodservice Solution

Thomas Ridley Foodservice provides a total solution for chefs aiming to offer a unique experience in top class restaurants and hotels and to those in the cost sector providing meals for schools and care homes. We value our business partnership with the Craft Guild of Chefs and have worked with guild members to provide direct focus within specific categories of our customer base.

Our dedicated team of professionals understands the bespoke needs of each sector; they have a wealth of experience and an in-depth understanding of the needs of chefs, caterers and contractors. Our team uses their considerable knowledge to work with our customers on product sourcing, menu planning and cost control ensuring we deliver the products and services that are right for your establishment.

As a family business; we have a hands-on management style and are passionate about providing a personal and flexible service for all of our customers which remains at the heart of the business. We constantly work to maintain our reputation for quality products and ingredients, delivering value,

convenience and outstanding customer service, whilst retaining the personal touch that sets us apart.

As well as carrying a wealth of branded products, Thomas Ridley is proud to bring you our own dedicated foodservice brand, Country Range. Our broad range of products includes grocery, chilled, fine foods, fresh fruit & vegetables, butchery and frozen foods, beverages and a range of sundries & disposables. All delivered to you by our nationwide multi-temperature delivery service.

We are committed to encouraging and promoting the benefits of a balanced diet; this can all be backed up with K2n - Key to Nutrients, an easy-to-use online tool enabling the evaluation of the nutritional value of meals served and to monitor the dietary intake of an individual over a period of time. This is useful for sports people, children and the elderly.
